# SPECTRUM.

# LEAD FORENSICS. PORTSMOUTH.

Lead Forensics is a leading technology company who provide website visitor tracking.

Lead Forensics partnered with Spectrum Workplace for a complete office design and refurbishment project. Their office space in Lakeside, Northarbour, Portsmouth had become tired and needed a complete redesign and full office refurbishment.

Spectrum's scope of work included:

- An office that supports hybrid working
- Cool office design with the **wow** factor
- Informal meeting spaces
- Gaming area and gym
- Client meeting areas
- Staff kitchen and breakout space

# CLIENT TESTIMONIALS

"What we liked about Spectrum was the track record they've got - some of the spaces they've designed elsewhere we really liked the look of. We like the fact that it's kind of an all-in-one shop in that we are just dealing with one organisation. They're then dealing with all of the trades for us."

COO, **Lead Forensics**

"With the project complete the office has definitely been completely transformed - it really is now a first-rate working environment. The team are overwhelmingly positive - I think it's fair to say it exceeded expectations across the board."
